The IRA can get us most of the way to our 2030 goal

President Biden’s 2030 climate goal: 50-52% below 2005 levels
Most gains through 2030 come from clean electricity.
The IRA drives many other benefits (#s in 2030)

- 2,900 – 4,500 avoided premature deaths annually
- 1.2 – 1.3 million new jobs
- 72% – 85% clean electricity (compared to 49% w/o IRA)
- 76,300 – 118,600 avoided asthma attacks annually
- 0.65% – 0.77% increase in GDP
- $79 – $80 in energy savings per household annually
